FALL 2025

- August 20
- September 3
- September 17
- October 1
- October 15
- October 29
- November 12

SPRING 2026

- January 21
- February 4
- February 18
- March 4
- March 18
- April 1
- April 15

Launched in 2024, the Simmons Senior Tech Hub at ElderServe has already begun transforming lives by offering free, biweekly digital literacy workshops for senior citizens. With the support of Simmons Tech Scholars, students at Simmons College of Kentucky, senior citizens are gaining confidence in navigating mobile and computer devices, managing online health and medical services, and even exploring artificial intelligence. The impact of this initiative will be highlighted at an awards ceremony, showcasing the power of education in improving the quality of life for older adults at the end of the program. Sessions are held from 11:30 am to 12:30 pm.
